

OUTBOUND SEQUENCE

Cannabis Brands

Multichannel (Email · SMS · LinkedIn · Voicemail) · Sender: Cameron Karkut

Sequence at a glance

Step	Timing	Channel	What goes out
Day 0	Send immediately	LinkedIn	LinkedIn Connect
Day 1	Wait 1 day	Email	Email 1 — The Opener
Day 3	Wait 2 days	SMS	SMS 1 — The Nudge
Day 5	Wait 2 days	Email	Email 2 — How It Works
Day 7	Wait 2 days	Voicemail	Voicemail 1
Day 9	Wait 2 days	LinkedIn	LinkedIn DM 1
Day 11	Wait 2 days	Email	Email 3 — The Proof
Day 13	Wait 2 days	SMS	SMS 2 — Follow-up Bump
Day 15	Wait 2 days	Email	Email 4 — The Direct Ask
Day 17	Wait 2 days	LinkedIn	LinkedIn DM 2
Day 19	Wait 2 days	Voicemail	Voicemail 2
Day 21	Wait 2 days	SMS	SMS 3 — Final Bump
Day 23	Wait 2 days	Email	Email 5 — The Breakup
Day 23+	—	Exit	Exit to Newsletter Nurture (3 months)

The full sequence

Day 0 · LinkedIn Connect

Channel: LinkedIn | Timing: Send immediately

Connection request note:

Hi {{first_name}} - I work with cannabis brands on compliant Meta/Google ads and in-store attribution. Would love to connect.

Day 1 · Email 1 — The Opener

Channel: Email | Timing: Wait 1 day

Subject: Quick question about your dispensary sales

Hi {{first_name}},

When {{company}} runs Meta or Google ads, can your team see which specific dispensaries are actually converting that spend into in-store sales?

I'm Cameron, co-founder of [Transparent eCom](#). We help regulated brands get compliant ads live on Meta and Google - no blurring, no bans, no workarounds.

Most brands can track clicks, impressions, and site traffic - but once a customer walks in, the trail usually goes cold. Which store converted, which SKU moved, which market deserves more budget - all end up as guesswork.

We've built a way to close that gap: a network that connects compliant Meta and Google campaigns directly to verified in-store purchase data at partner dispensaries.

If this is something {{company}} is dealing with, worth a conversation. [Book a call here](#).

Best,

Cameron Karkut

Transparent eCom

[Free Resource: Compliance Ad Account Setup Checklist - Download here](#)

Day 3 · SMS 1 — The Nudge

Channel: SMS | Timing: Wait 2 days

Text message:

Hey {{first_name}}, just sent you a note about connecting {{company}}'s ad spend to actual in-store dispensary sales - worth a quick look? Happy to send more if useful.

Day 5 · Email 2 — How It Works

Channel: Email | Timing: Wait 2 days

Subject: How the attribution actually works

Hi {{first_name}},

Following up - wanted to give you a clearer picture of how this actually works, since "attribution network" can sound abstract without the mechanics.

- A brand runs a geo-targeted ad around a partner dispensary.
- A local customer sees it, walks in, and buys.
- Our tracking matches that purchase back to the specific ad that drove it - real-time, down to the SKU.

Not modeled foot traffic. Verified purchase data.

Short deck walks through the mechanics - read here.

If a call is easier, grab 15 min here.

Best,

Cameron Karkut

Transparent eCom

[Free Resource: Compliance Ad Account Setup Checklist](#)

Day 7 · Voicemail 1

Channel: Voicemail | Timing: Wait 2 days

Ringless voicemail script (~20–25 sec):

Hey {{first_name}}, this is Cameron from Transparent eCom. Quick question - when {{company}} runs Meta or Google ads, does your team actually know which dispensaries are turning that spend into in-store sales? Most brands can see clicks, but the moment a customer walks in, the trail goes cold. That's what we've built a solution for. Give me a call back at number - again, number. Talk soon.

Day 9 · LinkedIn DM 1

Channel: LinkedIn | Timing: Wait 2 days

LinkedIn message:

Hi {{first_name}} - reached out by email but figured LinkedIn might be easier. We help cannabis brands prove which dispensaries their ad spend actually drives sales in. Put together a short case study on it - happy to send if useful. Worth a quick chat?

Day 11 · Email 3 - The Proof

Channel: Email | Timing: Wait 2 days

Subject: How Housing Works closed the loop

Hi {{first_name}},

Sharing something relevant. We worked with **Housing Works in NYC** - before us, they'd never had success running Meta ads. We got them live, kept them live, and tracked in-store purchases back to specific ads.

"We finally know what's working. Transparent eCom connected the dots across sales, form fills, and social engagement - showing us exactly how our ad spend drives real results. They even tracked purchases all the way to in-store." - Elizabeth Koke, Sr. Director Brand Strategy, Housing Works

If a call feels like too much right now, we also just published our 2026 Meta & Google Ad Compliance Checklist for cannabis brands - the exact framework we use to keep accounts alive.

[Download the checklist here.](#)

Or if you'd rather see how this maps to {{company}} specifically, [grab 30 min here](#).

Best,
Cameron Karkut
Transparent eCom

Day 13 · SMS 2 — Follow-up Bump

Channel: SMS | Timing: Wait 2 days

Text message:

Hey {{first_name}} - still happy to show you which dispensaries are actually converting {{company}}'s ad spend. Quick call this week? [Book here](#).

Day 15 · Email 4 — The Direct Ask

Channel: Email | Timing: Wait 2 days

Subject: 30 minutes to walk you through it?

Hi {{first_name}},

To keep this simple:

- No minimum ad spend required.
- We review your actual account with you before anything changes, at no cost.
- If you're on our self-serve tier, there's a 30-day guarantee - if it's not working in the first 30 days, it's free.

I'd rather show you real numbers than keep describing it. [Grab 30 min here](#).

Best,
Cameron Karkut
Transparent eCom

Day 17 · LinkedIn DM 2

Channel: LinkedIn | Timing: Wait 2 days

LinkedIn message:

Hi {{first_name}} - circling back. If proving retail ROI is on {{company}}'s radar this quarter, I'd love 15 min to show you how we track ad spend to in-store sales. [Book here](#) - or reply and I'll work around you.

Day 19 · Voicemail 2

Channel: Voicemail | Timing: Wait 2 days

Ringless voicemail script (~20–25 sec):

Hey {{first_name}}, Cameron from Transparent eCom again. Still think there's a real fit here for {{company}} - we help cannabis brands prove exactly which dispensaries their ad spend drives sales in. If it's worth a quick look, call me at number. Again, number. Thanks.

Day 21 · SMS 3 — Final Bump

Channel: SMS | Timing: Wait 2 days

Text message:

{{first_name}}, last nudge from me - want me to send the dispensary attribution breakdown over, or should I close this out?

Day 23 · Email 5 - The Breakup

Channel: Email | Timing: Wait 2 days

Subject: Should I close this out?

Hi {{first_name}},

I've reached out a few times about connecting {{company}}'s ad spend to in-store dispensary sales, and wanted to check whether this is worth pursuing now or better revisited later.

This tends to matter most for brands that sell through dispensaries, run or plan to run Meta/Google ads, and want clear proof of what's converting at retail.

Here's a quick read on how we do it.

If the timing isn't right, that's completely fine - just let me know and I'll follow up accordingly. Otherwise, happy to find time this week.

Best,
Cameron Karkut
Transparent eCom

Day 23+ · Exit to Newsletter Nurture (3 months)

Channel: Exit | Timing: —

No reply after all steps → lead exits to newsletter nurture for 3 months, untouched by sequence. After 3 months, re-enter with refreshed messaging.
